Highlights

National Science Week For National Science Week, Butterflies have been curious scientists that investigated what amounts of sand and water make the best mixture for a strong and stable sandcastle.

Design & Technology In DT, Otters Class were investigating which materials were best for making wind turbines.

Bug Fest Caterpillar Class enjoyed a fabulous morning getting up close and personal with a variety of creepy crawlies. (photos to follow)

Don't forget to check out the Year Group Pages on our school website, particularly the Celebration of Learning pages, which showcase lots of what the children have been up to!

A Note From Mrs Lloyd

A very big warm welcome back to the Summer Term. It seems impossible to think that we are now in the final third of this academic year, but there is so much fun and learning outside of the classroom still to be had. School trips, swimming lessons, our spring fair, carnival and a skateboard workshop to name but a few! Parent volunteers are crucial in making these events happen, so thank you for your upcoming support.

I would like to thank the numerous parents for their kind and understanding emails that I have received this week in response to the recent communication regarding the assembly. It is always best to contact the school directly should you personally have any concerns. I am always available to give reassurance and further explanation if needed.
